

Carol J Schramke, PhD

Psychology

Dr. Schramke is director of Behavioral Neurology in the Department of Neurology of Allegheny General Hospital (AGH). She cares for patients with cognitive and psychological issues related to epilepsy, psychogenic nonepileptic seizures, multiple sclerosis, Parkinson's disease, dementia, ALS, stroke, head injury, and other neurological disorders.

She has a special interest in neuropsychology and is experienced at performing neuropsychological assessment and psychotherapy.

Dr. Schramke is also vice chair of the AGH Ethics Committee for AGH and AHN. She is a member of the Professional Advisory Committee for the Epilepsy Association of Western and Central Pennsylvania. She also serves as a member of the Pennsylvania Keystone Healthcare Engagement Council for the National MS Society. She speaks English
