

## **Fabiola Balmir, MD**

Reproductive  
Endocrinology/Infertility

Dr. Balmir is an infertility specialist who evaluates and treats all types of reproductive problems and offers a wide range of innovative treatments for both male and female infertility. Her goal is to help patients achieve a healthy pregnancy as safely and quickly as possible.

Dr. Balmir is experienced with a wide variety of conditions, including pregnancy loss issues, polycystic ovarian syndrome (hormone imbalance), menstrual and reproductive disorders, and tubal reversal. The AHN Center for Reproductive Medicine welcomes single people and same-sex couples. Treatment options include in vitro fertilization (IVF), egg freezing (cryopreservation), and donor eggs.

She earned her degree at Morehouse School of Medicine in Atlanta, Georgia, and completed her residency in obstetrics and gynecology at Stony Brook University Hospital in New York. She gained additional experience during her fellowship in
