

Jeffrey M Matheny, MD

Orthopaedic Surgery

Dr. Matheny provides surgical care for patients with pain, arthritis, injuries, or other problems in their hip, knees, elbows, or shoulders. He also treats hand and wrist issues, including carpal tunnel syndrome. He performs hip and knee replacements, knee meniscus surgery, and rotator cuff surgery.

He is clinically interested in shoulder injuries, total joint replacements, and sports medicine and is experienced in patient-specific total joint replacement and arthroscopic procedures. He speaks English.
