

Edward D Poon, MD

Orthopaedic Surgery

Dr. Poon provides surgical care for patients with pain, arthritis, injuries, or other problems in their hips, knees, elbows, or shoulders. He also treats hand and wrist issues, including carpal tunnel syndrome. He performs hip and knee replacements, knee meniscus surgery, and rotator cuff surgery for athletes and other adults.

Dr. Poon is clinically interested in primary and revision total joint replacements, knee arthroscopy, and rotator cuff injuries. He is experienced in patient specific total joint replacement and arthroscopic procedures. He speaks English and Cantonese.
