

Cyrus M Khan, MD

Hematology

Dr. Khan is a hematologist with the AHN Cancer Institute. He specializes in treating disorders and cancers of the blood, such as lymphoma, leukemia, myeloma (hematological malignancies). He is skilled in treatments for these conditions, including stem cell transplantation, cellular therapy, and CAR T-cell therapy.

Dr. Khan is involved in hematology research and has published in medical journals and presented his findings at national conferences. He supports AHN's community outreach through the Leukemia & Lymphoma Society. He speaks English, Urdu, Pushto, and Persian.

He earned his medical degree from Ayub Medical College in Abbottabad, Pakistan. He completed his residency at Baystate Medical Center in Springfield, MA. He continued his studies through a hematology fellowship at the AGH-WPH Medical Education Consortium in Pittsburgh, PA.
