

Matthew C Becker, MD

Cardiology

Dr. Becker is Director of structural heart disease therapies as well as the Cardiology Catheterization Lab at AHN Saint Vincent Heart and Vascular Institute (HVI). He treats all patients with cardiovascular disease, coronary artery disease, peripheral vascular disease, and valve disease.

Dr. Becker founded the Peripheral Vascular and Structural Heart Disease programs at Saint Vincent HVI where he completes over 400 PVD interventions, 100 TAVR, 60 Watchman LAAO, and 300+ venous procedures annually. He studies clinical research into TAVR. He is active in cardiology research, has presented his findings at medical conferences, and is widely published.

Dr Becker has also patented several devices and is the Principal Investigator for numerous peripheral clinical trials. He is also the founder and president of Panvascular Consulting Group — a physician run organization dedicated to post-fellowship cardiovascular procedural proctoring and training in emerging
